

RICHARD RENO GALGIDELE

INFORMATION TECHNOLOGY SPECIALIST | SOFTWARE DEVELOPER

Kenya • 0741158822 • richardreno002@gmail.com • GitHub: RICHYREN-UX

PROFESSIONAL SUMMARY

Information Technology graduate and software developer with practical experience in web development, database-driven applications, system troubleshooting, and digital project development. Skilled in building responsive websites and working with modern development tools, with a strong interest in creating reliable, user-focused technology solutions. Detail-oriented, adaptable, and committed to continuous technical growth.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, PHP, Bootstrap, responsive web design

Programming: Java, Visual Basic, object-oriented programming, problem solving

Databases: MySQL, SQL, database design, CRUD operations

Tools & Platforms: Git, GitHub, VS Code, XAMPP, Microsoft Office

IT Support: Hardware/software troubleshooting, system configuration, user support

Systems & Networking: Networking fundamentals, OSI model, TCP/IP, basic network troubleshooting

EDUCATION

Graduate of Information Technology

Relevant areas: Software Development, Systems Analysis & Design, Databases, Networking, Human-Computer Interaction, and IT Support.

PROJECTS

Veterinary Care Website — Developed a professional website concept for Sesai Vetcare with business information, services, branding and responsive presentation.

Database & Web Applications — Worked on PHP/MySQL projects involving authentication, user/admin access, appointments and database-backed functionality.

PROFESSIONAL STRENGTHS

- Problem solving and analytical thinking
- Fast learner with strong interest in emerging technologies
- Clear communication and teamwork
- Attention to detail and user experience
- Ability to troubleshoot technical issues independently

CAREER OBJECTIVE

To contribute my IT and software development skills in a professional environment where I can build practical technology solutions, support users and systems, collaborate with a team, and continue developing as an IT professional.
